

CORNELY
CHAINSTITCH EMBROIDERY MACHINE WITH
AUTOMATIC ATTACHMENT.
MACHINE "AA"

Manufactured by Anciens Etablissements
R. Cornely & Cie., Paris, France

This machine has an Automatic Attachment, by means of which it is possible to produce certain designs of embroidery automatically by means of cams and without skilled operator.

Designs are produced with greater regularity, and greater production than when hand guided machines are used.

A variety of designs can be made by means of separate cams, some of which can make 3 or 4 different designs. In addition, the Automatic Attachment can be easily disconnected without removing any parts and the machine can be guided by the handle and operates and produces the work of the regular Cornely Machine "A," producing Chainstitch and Moss Stitch Embroidery in any design.

We carry an Automatic Machine particularly for hosiery, which is our regular Cornely Machine "E" with cut out bed plate, fitted with Automatic Attachment as illustrated above, and this is designated as Machine "EA."
