

CORNELY

HOSIERY AND GLOVE EMBROIDERY MACHINE.

MACHINE "E"

Manufactured by
Anciens Etablissements
R. Cornely & Cie., Paris, France

This Universal Bonnaz Embroidery Machine produces the Chain Stitch and the Moss or Raised Pile Stitch; the machine can work with any kind of thread, such as silk, cotton, wool or metal threads, and can work on any kind of material from the thinnest lace to the heaviest cloth or knit goods.

The machine is provided with the Universal Feed Motion turning all around, which allows it to execute any kind of pattern and to produce embroideries of the most intricate designs without turning the material which is to be embroidered.

This machine is constructed specially for embroidering Hosiery, Gloves and other hollow articles, such as felt and straw hats.

For this purpose, the table plate of the machine is cut away on both sides of the needle plate, thus leaving only a long and narrow arm which penetrates easily into the interior of the stockings and gloves. It also embroiders flat goods.
