

**CORNELY**  
**ONE AND TWO NEEDLE ALTERNATING**  
**CHAIN STITCH**  
**AND**  
**DOUBLE CROSS STITCH.**  
**MACHINE "RT"**

Manufactured by  
**Anciens Etablissements**  
**R. Cornely & Cie.,**  
**Paris, France.**

This machine works with two needles, and with two spools of thread producing two parallel rows of chain stitches on the upper side of the material, each stitch alternating in color, and at the same time, it produces a double cross stitch on the under side of the material, the double cross stitch effects are very beautiful and practical, and are especially valuable in covering the edges of appliqué effects, making a strong holding stitch and an ornamental effect at the same time.

The two needle effects can be made in three different widths.

This machine also works with one needle and two spools of thread and produces a single row of chain stitches, each stitch alternating in color.

It can be used on any weight of fabric perfectly and is of particular advantage when the two needle effect is used on thin materials, such as voiles, georgettes, etc., as the chain stitching can be used on the right side, and the cross stitching show through from the wrong side.

This machine is also of great value in making Pointing effects on the backs of gloves and when making embroidery effects on the cuffs of gloves, using the alternating color chain stitches with either one or two needles.
