

PROCTOPHYLLODES, Robin et Mégnin.

1. **Proctophyllodes sialiarum.**

Proctophyllodes sialiarum, Stoll, anteà, p. 42, Tab. XXI. figg. 3 (♂), 4-4 c (♀).

Hab. GUATEMALA, Retalhuleu.

N.B.—I have noticed the presence of a few other genera in Guatemala, but my notes and drawings respecting them are too fragmentary to allow specific determination. These genera are: *Linopodes*, C. L. Koch, *Gamasus*, Latr. (sensu stricto), *Pteroptus*, Duf., *Tyroglyphus*, Latr.
