

Cantharis biguttata (p. 445). (Tab. XXI. figg. 23, ♀, 24, ♂, varr.)

We figure two specimens of this species: one, a dark-coloured female, from Villa Lerdo; the other, from Guanajuato, represents a male of the var. *bivirgata*, Dugès.

Cantharis gentilis (p. 448). (Tab. XXI. fig. 25, ♂.)
