

BIOLOGIA CENTRALI-AMERICANA.

ZOOLOGIA.

Class INSECTA.

Order RHYNCHOTA.

Suborder HEMIPTERA-HOMOPTERA (continued).

Fam. ALEURODIDÆ*.

The following species have been recorded from our region:—

ALEURODICUS, Dougl.

1. **Aleurodicus dugesi.**

Aleurodicus dugesi, Ckll. Canad. Entom. 1896, p. 302.

Hab. MEXICO: Guanajuato (*Dugès*).

2. **Aleurodicus iridescens.**

Aleurodicus iridescens, Ckll. Psyche, 1898, p. 225.

Hab. MEXICO: Tabasco (*Townsend*).

3. **Aleurodicus mirabilis.**

Aleurodes mirabilis, Ckll. Psyche, 1898, p. ~~225~~.

Aleurodicus mirabilis, Ckll. Psyche, 1899, p. 360.

Hab. MEXICO: Tabasco (*Townsend*); Minatitlan, on *Anona*, 1898 (*Townsend*).

ALEURODES, Amy. & Serv.

1. **Aleurodes vinsonioides.**

Aleurodes vinsonioides, Ckll. Psyche, 1898, p. 225.

Hab. MEXICO: Tabasco (*Townsend*).

2. **Aleurodes nicotianæ.**

Aleurodes nicotianæ, Maskell, Trans. New Zeal. Inst. 1895, p. 436.

Hab. MEXICO: Guanajuato (*Dugès*).

3. **Aleurodes erigerontis.**

Aleurodes erigerontis, Maskell, Trans. New Zeal. Inst. 1895, p. 429.

Hab. MEXICO: Escalon (*Cockerell*). See Ent. News, 1896, p. 247.
