

three diameters; 2 *f*, part of a transverse section, enlarged twelve diameters.—p. 493.

Fig. 3. *MANOPORA PALMATA*, variety.—p. 494.

Fig. 4. *MANOPORA SPUMOSA*, corallum, natural size; 4 *a*, a portion of the same.—p. 495.

Fig. 5. *MANOPORA HISPIDA*, corallum, natural size.—p. 496.

PLATE 45.

Fig. 1. *MANOPORA GRANDIFOLIA*, corallum, natural size; 1 *a*, polyp, enlarged; 1 *a'*, natural size of polyp; 1 *b*, surface of corallum, natural size; 1 *c*, surface, enlarged; 1 *d*, transverse section, enlarged.—p. 449.

Fig. 2. *MANOPORA EXPANSA*, corallum, half natural size; 2 *a*, polyp enlarged; 2 *a'*, same, natural size; 2 *b*, surface of corallum, natural size; 2 *c*, surface, magnified; 2 *d*, section, magnified.—p. 448.

PLATE 46.

Fig. 1. *MANOPORA CRISTA-GALLI*, corallum, natural size; 1 *a*, part of a branch, natural size.—p. 494.

Fig. 2. *MANOPORA NODOSA*, zoophyte, natural size; 2 *a*, part of a zoophyte with expanded polyps, enlarged; 2 *b*, part of surface of corallum, enlarged; 2 *c*, transverse section of corallum, enlarged.—p. 501.

Fig. 3. *MANOPORA SCABRICULA*, zoophyte, natural size; 3 *a*, part of surface, with polyps enlarged; 3 *b*, part of surface of corallum, enlarged; 3 *c*, vertical section of corallum, enlarged.—p. 502.

Fig. 4. *MANOPORA EFFUSA*, corallum, part in outline, natural size; 4 *a*, surface of corallum, natural size.—p. 500.

Fig. 5. *MANOPORA EROSA*, corallum, natural size; 5 *a*, vertical section, enlarged.—p. 504.

PLATE 47.

Fig. 1. *MANOPORA INCRASSATA*, corallum, natural size.—p. 503.

Fig. 2. *MANOPORA TUBERCULOSA* (?), corallum, natural size; 2 *a*, polyp, enlarged, beginning to expand.—p. 506.

Fig. 3. *MANOPORA PLANUSCULA*, corallum, natural size; 3 *a*, vertical section, enlarged.—p. 507.

Fig. 4. *MANOPORA CAPITATA*, corallum, natural size.—p. 504.

PLATE 48.

Fig. 1. *MANOPORA DIGITATA*, zoophyte, in part expanded; 1 *a*, polyp, enlarged; 1 *b*, part of branch of corallum, natural size; 1 *c*, cell, enlarged; 1 *d*, section of branch of corallum.—p. 508.

Fig. 2. *MANOPORA TORTUOSA*, corallum, natural size.—p. 509.

Fig. 3. *ALVEOPORA SPONGIOSA*, corallum, the drawing showing general shape only, size reduced two diameters; 3 *a*, part of corallum, natural size; 3 *b*, cells, enlarged; 3 *c*, section of cell; 3 *d*, vertical section of corallum, enlarged.—p. 513.

Fig. 4. *ALVEOPORA DEDALEA*, corallum, natural size.—p. 512.

PLATE 49.

Fig. 1. *SIDEROPORA MORDAX*, zoophyte expanded, natural size; 1 *a*, polyp, enlarged; 1 *b*, surface of corallum at the extremity of

a branch, showing the stellate cells, enlarged; 1 *c*, section, enlarged.—p. 518.

Fig. 2. *SIDEROPORA PALMATA*, var. *COALESCENS*, corallum, natural size.—p. 516.

Fig. 3. *SERIATOPORA HYSTRIX*, branches from the central part of a hemispherical clump, natural size; 3 *a*, supposed to be the same, from the outer part of a clump; 3 *b*, part of a section of a branch, enlarged.—p. 521.

Fig. 4. *SERIATOPORA CALENDRUM*, a few branches of the corallum, natural size.—p. 522.

Fig. 5. *POCILLOPORA CESPITOSA*, part of a clump, natural size, in outline; 5 *a*, extremity of a branch, showing the surface, natural size.—p. 525.

Fig. 6. *POCILLOPORA BULBOSA*, part of a clump, in outline, natural size; 6 *a*, extremity of a branch, showing the surface, natural size.—p. 527.

Fig. 7. *POCILLOPORA DAMICORNIS*, part of a clump, in outline, natural size; 7 *a*, extremity of a branch, natural size, showing the surface.—p. 527.

Fig. 8. *POCILLOPORA BREVICORNIS*, part of a clump, in outline.—p. 526.

PLATE 50.

Fig. 1. *POCILLOPORA FAVOSA*, corallum, natural size.—p. 528.

Fig. 2. *POCILLOPORA LIGULATA*, branch of corallum, natural size; 2 *a*, surface and cells, enlarged. (This species may be the same with *P. PLICATA*, fig. 7.)—p. 531.

Fig. 3. *POCILLOPORA VERRUCOSA*, branch of corallum, in outline, natural size; 3 *a*, verrucae, natural size.—p. 529.

Fig. 4. *POCILLOPORA ELONGATA*, branch, natural size, in outline; 4 *b*, cells, enlarged.—p. 531.

Fig. 5. *POCILLOPORA QUADRATA*, branch of corallum, in outline; 5 *a*, extremity of a branch, showing surface, natural size.—p. 530.

Fig. 6. *POCILLOPORA MEANDRINA*, branch of corallum, natural size; 6 *a*, the verrucae, natural size; 6 *b*, transverse section of branch, natural size.—p. 533.

Fig. 7. *POCILLOPORA PLICATA*, a plate or branch, natural size; 7 *a*, surface enlarged, view of cells oblique; 7 *b*, same view, vertical; 7 *c*, vertical section of corallum, enlarged; 7 *d*, transverse section, enlarged.—p. 534.

PLATE 51.

Fig. 1. *POCILLOPORA ELEGANS*, part of a clump, natural size; 1 *a*, verrucae of rami, natural size.—p. 532.

Fig. 2. *POCILLOPORA GRANDIS*, corallum, natural size; 2 *a*, part of a branch, showing surface; 2 *b*, verrucae, natural size; 2 *c*, surface, enlarged.—p. 533.

Fig. 3. *POCILLOPORA INFORMIS*, corallum, natural size; 3 *a*, surface, magnified, showing cells.—p. 535.

PLATE 52.

Fig. 1. *HELIOFORA MEANDRINA*, corallum, natural size; 1 *a*, surface, enlarged; 1 *b*, internal structure shown, much magnified.—p. 540.

Fig. 2. *HELIOFORA CERULEA*, var. *TUBEROSA*, corallum, natural size.—p. 540.
