

- Fig. 76. *BULIMUS PROTEUS*, the animal, with a variety of the shell; 76 a, facial view of the head of the animal.—p. 78.
- Fig. 77. *BULIMUS FULGURATUS*, shell, with the animal.—p. 80.
- Fig. 78. *BULIMUS MALLEATUS*, shell, with the animal.—p. 81.
- Fig. 79. *BULIMUS PROLATUS*, ventral view of the shell; 79 a, dorsal view of the shell.—p. 74.
- Fig. 80. *BULIMUS CILIATUS*, ventral view of the shell; 80 a, dorsal view of the shell, with the animal.—p. 75.
- Fig. 81. *BULIMUS CHILENSIS*, side view of the animal, with the shell; 81 a, and 81 b, views of the head, in front and from beneath.—p. 79.
- Fig. 82. *BULIMUS MOROSUS*, ventral view of the shell; 82 a, dorsal view of the shell.—p. 72.
- Fig. 83. *BULIMUS FRUNINUS*, ventral view of the shell; 83 a, dorsal view of the shell.—p. 73.
- Fig. 84. *BULIMUS ELOBATUS*, ventral view of the shell; 84 a, dorsal view of the shell.—p. 72.
- Fig. 85. *BULIMUS SIBOGII*, the animal, with the shell, seen from above; 85 a, lateral view of the animal, with the shell; 85 b, front view of the head of the animal.—p. 79.
- Fig. 86. *BULIMUS EGREGIUS*, frontal view of the shell; 86 a, dorsal view of the shell.—p. 77.
- Fig. 87. *BULIMUS JUNCEUS*, front view of the shell, enlarged; 87 a, natural size.—p. 76.
- Fig. 88. *PARTULA CONICA*, shell of the brown variety, with the animal; 88 a, ventral view of the yellow variety.—p. 81.
- Fig. 89. *PARTULA ZEBRINA*, a dark shell, with the animal; 89 a, the pale variety.—p. 82.

PLATE 7.

- Fig. 90. *PARTULA FUSILLA*, the shell, enlarged; 90 a, natural size.—p. 83.
- Fig. 91. *PARTULA TARIITANA*, shell, with the animal.—p. 84.
- Fig. 92. *PARTULA VARIA*, shell, with the animal.—p. 85.
- Fig. 93. *PARTULA VANIKORENSIS*, shell, with the animal.—p. 85.
- Fig. 94. *ACHATINELLA MARMORATA*, ventral view of the shell; 94 a, dorsal view of the shell.—p. 85.
- Fig. 95. *ACHATINELLA NUBIFLOSA*, ventral view of the shell.—p. 86.
- Fig. 96. *ACHATINELLA ELLIPSOIDEA*, ventral view of the shell; 96 a, dorsal view of the shell.—p. 87.
- Fig. 97. *ACHATINELLA ACCINCTA*, ventral view of the shell; 97 a, shell, with the animal, seen laterally.—p. 88.
- Fig. 98. *ACHATINELLA GUTTULA*, ventral view of the shell, enlarged; 98 a, natural size.—p. 89.
- Fig. 99. *ACHATINELLA CEREBALIS*, ventral view of the shell, enlarged; 99 a, natural size.—p. 90.
- Fig. 100. *ACHATINELLA ACUMINATA*, ventral view of the shell, enlarged; 100 a, natural size.—p. 87.
- Fig. 101. *MEGASPIRA ELATA*, view of the aperture, enlarged.—p. 91.
- Fig. 102. *MEGASPIRA ELATIOR*, view of the aperture, enlarged.—p. 92.
- Fig. 103. *VERTIGO TANTILLA*, ventral view of the shell, enlarged; 103 a, lateral view of the shell, enlarged; 103 b, natural size.—p. 92.
- Fig. 104. *PUPA PEPONUM*, front view of an elongated specimen, magnified; 104 a, a short specimen, magnified; 104 b, natural size; 104 c, 104 d, 104 e, views of the aperture, enlarged.—p. 93.
- Fig. 105. *BALEA PEREGRINA*, enlarged; 105 a, profile of the aperture, enlarged; 105 b, natural size.—p. 91.
- Fig. 106. *HELICINA FULGORA*, shell, with the animal; 106 a, lateral view of the shell, magnified two and a half diameters; 106 b, pit at the base of the columella, enlarged; 106 c, natural size.—p. 97.
- Fig. 107. *HELICINA MUSIVA*, shell, with the animal; 107 a, front view of the shell, magnified three diameters; 107 b, natural size.—p. 98.
- Fig. 108. *HELICINA LACINIOSA*, and 108 a, two views of the shell, magnified three diameters; 108 c, natural size.—p. 99.
- Fig. 109. *HELICINA TROCHILEA*, anterior view of the shell, magnified; 109 a, and 109 b, inferior and superior views of the shell, enlarged; 109 c, natural size.—p. 99.
- Fig. 110. *HELICINA MULTICOLOR*, view of the shell from above, magnified; 110 a, and 110 b, profile and basal views of the shell, enlarged; 110 c, natural size.—p. 100.
- Fig. 111. *HELICINA BERYLLINA*, shell, with the animal; 111 a, basal view of the shell.—p. 95.
- Fig. 112. *HELICINA MAUGERLE*, shell, with the animal, magnified one-fourth.—p. 95.
- Fig. 113. *HELICINA FALLIDA*, ventral view of the shell, enlarged; 113 a, the superior, and 113 b, the inferior views of the shell, enlarged; 113 c, natural size.—p. 96.
- Fig. 114. *HELICINA UBERTA*, profile view of the shell in front, magnified; 114 a, the shell, from above, and 114 b, the shell, from beneath, enlarged; 114 c, natural size.—p. 94.

PLATE 8.

- Fig. 116. *CYCLOSTOMA TIARA*, view of the shell, from above; 116 a, lateral view of the shell.—p. 101.
- Fig. 117. *CYCLOSTOMA STRIGATUM*, lateral view of the shell; 117 a, base of the shell; 117 b, shell, seen from above.—p. 102.
- Fig. 118. *CYCLOSTOMA Plicatum* (C. APLE, Recluz, in *Journal Conchyliologique*, 1851, p. 213, pl. 6, f. 10, 11), shell, with the animal; 118 a, and 118 b, top and base of the shell. [De Verneuil has given this name to a fossil species; consequently, the name more recently applied by Recluz must be substituted.]—p. 103.
- Fig. 119. *CYCLOSTOMA OBLIGATUM*, lateral view of the shell; 119 a, view of the shell from beneath.—p. 104.
- Fig. 120. *CYCLOSTOMA TERRESTRIS*, an elongated specimen, enlarged; 120 a, a short specimen, enlarged; 120 b, natural size.—p. 106.
- Fig. 121. *CYCLOSTOMA ROSEUM*, ventral view of the shell, enlarged; 121 a, side view of the last whorl, enlarged; 121 b, natural size.—p. 105.
- Fig. 122. *CYCLOSTOMA VALLATUM*, ventral view of the shell, enlarged; 122 a, natural size.—p. 107.
- Fig. 123. *CYCLOSTOMA SCITULUM*, ventral view of the shell, enlarged; 123 a, lateral view of the shell, enlarged; 123 b, natural size.—p. 108.
- Fig. 124. *CYCLOSTOMA DIATRETUM*, view of the shell, from above; 124 a, the same in front; 124 b, the same from beneath.—p. 105.
- Fig. 125. *TRUNCATELLA AURANTIA*, front view of the shell, enlarged; 125 a, side view of the last whorl, enlarged; 125 b, natural size.—p. 110.
- Fig. 126. *TRUNCATELLA VITIANA*, ventral view of the shell, enlarged; 126 a, last whorl, seen laterally, enlarged; 126 b, natural size.—p. 109.
- Fig. 127. *TRUNCATELLA PUBERTA*, ventral view of the shell, enlarged; 127 a, side view of the last whorl, enlarged; 127 b, aperture, closed by the operculum, enlarged; 127 c, natural size.—p. 110.
- Fig. 128. *TRUNCATELLA BOSTRATA*, front of the shell, enlarged;
