CIRCULAR D.
FROM THE ERIE SEWING MACHINE COMPANY.

THE GREATEST INVENTION OF THIS AGE OF INVENTIONS!
UNSURPASSED FOR CERTAINTY AND RELIABILITY OF STITCH, FOR
EASE AND GRACE IN MOVEMENT, AND FOR ABSOLUTE WORTH,
BY ANY FAMILY SEWING MACHINE EXTANT.

THE ERA.

FAMILY SEWING MACHINE

Manufactured for the Company by their employees in New England, embracing
a large corps of the most skillful workers in Iron and Brass to be found
in the United States!

In presenting the Erie Family Sewing Machine to the Public, we do so with the
utmost confidence in its practical utility, its adaptation to the wants of the masses, and its intrinsic merits as a Labor-Saver in the
family household.

A Diploma was awarded our Machine by the Industrial Association
of Farmers & Mechanics, held at Chambersburg, Pa., at its Exhibition
in 1860, over the Grover & Baker and Boudoir Machines!

OUR AGENCY SYSTEM.

We have found by experience that our business can be prosecuted with better ef-
effect through a well-systematized plan of Agencies than any other mode. We are therefore prepared to offer employment to the unoc-
upied, at highly remunerative salaries, and as the work of an Agent is light and pleasant, and increases his facilities for an extensive
acquaintance and influence. You will perceive at a glance that our inducements are rare and seldom to be met with.

J. E. BOYLE.
Secretary Erie Sewing Machine Company,
MILAN, O.

CONFIDENTIAL CIRCULARS TO AGENTS FURNISHED ON APPLICATION.

[A. G. SMITH, Printer, Milan, O.]
Our Agency System

We have found by experience that our Agents can do business with greater advantage by the

our Factory, 30, Atkinson St., Manchester.
TWO THOUSAND STITCHES PER MINUTE.

Among the great inventions of this Age of Mechanism, the Sewing Machine stands eminently forward a time-saver and benefactor. The labor of many hours, by its magical transformation, becomes the pastime of minutes, and the sad stories of human suffering immortalized by Hood, in his "Song of the Shirt," will be, by its influence, remembered only as the heart-rending miseries of days gone by. By the medium of the expense and elaborate $50, $75, $100, and $150 article will this philanthropic reform be established.

The class to whom we refer—the "Daughters of Toll"—would find their scanty savings long inadequate to such a purchase. It is therefore necessary we meet their case, that we place the following facts before them relative to our $15 SEWING MACHINE.

It is so simple in its construction, so accurate and reliable in its execution, that even a child can manage it with success. Its mechanism is so simple that it can be taken apart and put together in perfect running order within three minutes. Fifteen minutes' instruction only is required to enable the learner to become perfectly familiar with its operation. Printed directions will accompany each machine by a reference to which, no difficulty will be experienced in acquiring the knowledge requisite to enable the purchaser to operate upon it. This Machine will sew, with ease, from ten to twelve hundred stitches per minute, and that, too, with greater accuracy than any other machine in the market. All parts of the Machine are of the highest quality, and are required to be removed to oil or clean it. For all kinds of Plain or Fancy Sewing—for Families, Tailors, Cap, Dress and Vest Makers, Quilting and Plantation Sewing, it cannot be excelled by any high priced Machine. While we are sensible of the opposition of the manufacturers and operators of the high priced Machines, and of their endeavoring efforts to place their cheap Sewing Machines as unfavorably before the public as they can, in order, if possible, to crush us, we cannot but be convinced that the more they talk, the more we advertise our Little Sewing Machine. The verdict of a discriminating public is for us.

We desire every purchaser to understand that we warrant the sewing of our Machine to be as durable, and give satisfaction equal to any of the high priced Machines.

What the People and the Press Say.

SEWING MACHINES.

The most useful inventions are those which apply in every day life and which afford the greatest relief and comfort to the multitude. Among such is surely the sewing machine; and it has been especially upon the latter, which most need such advantages.

The great drawback in the introduction of machines has been their high price; a good one has been unattainable for the most of persons needing them. The prospect of finding a good and cheap invention has, at length, been attained. Mr. Joseph Frey, of this place, is the Agent for our county, for the Erie Sewing Machine, which costs but fifteen dollars. It is convenient in size, and can be placed on a common work table, can be worked by a child, is not liable to get out of order, will do all sorts of sewing on all sorts of material, and with all sorts of thread; and in its operation it is perfectly noiseless. It will make 2000 stitches per minute, and make them well. Mr. Frey had the machine at our late County Fair, where it attracted the attention of number of persons was and was universally admired, drawing a Diploma.

We would call the attention of our readers to Mr. Frey's admirable machine, and respectfully suggest to those who are anxious to make a suitable and valuable gift to the ladies to dispense with. Mr. Frey will call on him.---Chamberburg (Pa.) Times.

LEO, LEO, LOS ANGELES, CA, Texas, July 6, 1900.

J. N. BOYLAN AGT.

Dear Sir:—The sample Machine you sent me has arrived in due time and in good order. I am glad to inform you that it has performed wonderfully well. All who see it seem to be eager to obtain one. It is certainly a great invention, and I am satisfied that I will be able to do a good business both for you and myself. You will please forward me seven of the $15 Sewing Machines, and two of the $29 Machines, care of S. Rob- linson, Postmaster.

J. B. LIVINGSTON.

CHATHAM, CANADA WEST, Aug. 11, 1900.

Erie Sewing Machine Co.

Gents:—The "Erie" came to hand yesterday, and owing to its simplicity I have succeeded in learning to work it in less than half an hour; and I am convinced that it is folly to pay $75 or $100 for a Sewing Machine when one can be had for $15, less complicated and not half as liable to get out of order as the large Machines.

Yours very truly,

THOMAS GROVER.

OSS, IND., August 15, 1900.

J. N. BOYLAN, Sec. Erie Sewing Machine Co.

Dear Sir,—I have received the sample Machines by Express and have already engaged three Machines, which it will be necessary to furnish immediately. The Machine is received with favor. I think I can sell a goodly number in this community.

Respectfully yours,

F. D. WILLIAMS.

Cleveland, Oct. 5, 1900.

J. N. BOYLAN.

Dear Sir:—The Erie Family Sewing Machine is one of the most perfect for family use. It is capable in construction, elegant in appearance, and durable in use. Every family should have one.

BRAINARD & BURRIDGE.

Solicitors of Patents.

FORT KING, FLORIDA, July 13, 1900.

Gents:—Your sample Machines reached me this morning in good order. It meets my expectations fully. I admire the simplicity and durability of its construction, and can hardly imagine it is necessary to run to any other one.

I shall introduce them here in a short time.

Respectfully yours,

H. WARNER.

CHAMBERSBURG, PA., Oct. 8, 1900.

Mr. J. N. BOYLAN.

Dear Sir,—Yours of the 4th has been received, as was also the Machine on the same day, after my last note was despatched. The Machine works to a charm. It was on exhibition at our County Fair, last week, and received a Diploma as the best Machine in the County.

I want you to ship by return Express two Machines with Stands and Treadles, as I can sell them on their arrival here.

Trusting to hear from you immediately, I remain yours, etc.,

JAS. FRET.

NEW CARLISLE, Ind., May 31, 1900.

Mr. BOYLAN.

Sir:—Please send me five Machines—three with foot-power and table, and two of $10 Machines; and I am constrained to deliver them on or before the 20th of June. I have worked five days, and sold five Machines, and am confident that I can average one per day the rest of the month. Your Machine is well liked, and every one will buy who is able. Those I have sold are to the most responsible men in this section. I have not had a difficulty in managing your Machines—never yet been out of repair. Please forward soon. Respectfully yours,

S. R. CULP.
