

DIPLOPODA.

PLATE XII.

Fig. 1. *Polylepiscus furcifer*, sp. n. : anterior extremity.

- 1 a. " " terga of 10th and 11th segments.
- 1 b. " " posterior extremity.
- 1 c. " " keel of 16th segment.
- 1 d. " " 18th, 19th, and 20th segments from below.
- 1 e. " " phallopods from below.
- 1 f. " " extremity of right phallopod from below.
- 1 g. " " left phallopod from the side.
- 1 h. " " ditto (much enlarged).

2. *Polylepiscus actæon*, sp. n. : 10th and 11th terga.

- 2 a. " " posterior extremity.
- 2 b. " " 18th, 19th, and 20th segments from below.
- 2 c. " " tergum of 16th segment.

3. *Polylepiscus stolli*, sp. n. : anterior extremity.

- 3 a. " " terga of 11th and 12th segments.
- 3 b. " " posterior extremity.
- 3 c. " " keel of 16th segment.
- 3 d. " " 18th, 19th, and 20th segments from below.

4. *Dirhabdophallus montanus*, sp. n. : anterior extremity.

- 4 a. " " terga of 10th and 11th segments.
- 4 b. " " posterior extremity.
- 4 c. " " keel of 13th segment.
- 4 d. " " keels of 10th and 11th segments.
- 4 e. " " 18th, 19th, and 20th segments from below.
- 4 f. " " phallopods from below.
- 4 g. " " left phallopod from the outside.

5. *Dirhabdophallus granosus*, Carl : keel of 13th segment.

- 5 a. " " phallopods from below.
- 5 b. " " left phallopod from the outside.

6. *Dirhabdophallus spatulatus*, sp. n. : anterior extremity.

- 6 a. " " terga of 10th and 11th segments.
- 6 b. " " posterior extremity.
- 6 c. " " phallopods from below, the two seen from slightly different aspects.

7. *Dirhabdophallus ensiger*, sp. n. : phallopods and sternal area of 7th segment from below.
