

This appears to be a very variable species; the Mexican examples are very much darker-coloured than those from Costa Rica. Hübner's figures are intermediate between the two.

## ICHORIA.

*Ichoria*, Butler, Journ. Linn. Soc., Zool. xii. p. 370.

Mr. Butler places three species in his genus. In Central America these insects seem to be very rare; I have only received two examples of Walker's species.

### 1. *Ichoria quadrigutta*.

*Euchromia (Aclytea) quadrigutta*, Walk. Cat. i. p. 245<sup>1</sup>.

*Ichoria quadrigutta*, Butl. Journ. Linn. Soc., Zool. xii. p. 370; Ill. Lep. Het. pt. i. p. 25, t. 10. f. 1.

*Hab.* MEXICO<sup>1</sup>; GUATEMALA (*Staudinger*); COSTA RICA (*Van Patten and Boucard, mus. D.*).

### 2. *Ichoria lycone*, sp. n. (Tab. VI. fig. 9.)

Primaries and secondaries, upper and underside uniform blackish brown; antennæ slightly pectinated: head, thorax, and abdomen black; a blue dot on the back of the head, and one at the base of the thorax, also a bright red spot on each side of thorax and a central red spot on the first segment of the abdomen; legs black.

*Hab.* COSTA RICA, Irazu and Rio Sucio (*Rogers*); PANAMA, Volcan de Chiriqui (*Champion*).

The figure is from a Chiriqui specimen.

## MACROCNEME.

*Macrocneme*, Hübner, Verz. bek. Schmett. p. 124; Walker, Cat. i. p. 248.

This genus is well represented by six species in our country, three of them being new.

### 1. *Macrocneme leucostigma*.

*Glaucopis leucostigma*, Perty, Delect. t. 31. f. 11<sup>1</sup>.

*Macrocneme leucostigma*, Butl. Journ. Linn. Soc., Zool. xii. p. 371<sup>2</sup>.

*Hab.* MEXICO (*Boucard, mus. D.*); BRITISH HONDURAS, Rio Sarstoon (*Blancaneaux*); GUATEMALA, San Isidro, Zapote, Tamahu, Panzos (*Champion*); COSTA RICA, Cache (*Rogers*); PANAMA, Volcan de Chiriqui (*Champion*), Colon (*Boucard, mus. D.*).—VENEZUELA<sup>2</sup>; BRAZIL<sup>1</sup>.

This species seems to have a very extended range; it does not vary to any extent. Mr. Champion informs me that it is a very common insect in Central America.

### 2. *Macrocneme auripes*. (Tab. VI. fig. 15.)

*Macrocneme auripes*, Walk. Cat. i. p. 250<sup>1</sup>; Butl. Ill. Lep. Het. i. p. 25, t. 8. f. 4.

*Hab.* GUATEMALA, Teleman and Panzos (*Champion*); HONDURAS<sup>1</sup> (*Dyson*) PANAMA, David (*Champion*), Colon (*Boucard, mus. D.*).
