SUPPLEMENT.

My last contribution to the Homopterous portion of the Rhynchota as detailed in this work was in 1887. Since then I have been much away from England, and during my absence Canon Fowler undertook and carried on the enumeration and description of these insects. In leaving the remainder of this Suborder under his own classification and control, I supplement the groups on which I have written, viz. Cicadidæ, Fulgorinæ, and Dictyopharinæ, by such additions to the fauna as have reached our hands since the date of the previous publication.

Fam. CICADIDÆ (p. 1).

CICADA (p. 6).

7 (A). *Cicada oleacea*. (Tab. VI. figg. 17, 17 *a*, *b*.)

Fidicina oleacea, Dist. Ann. & Mag. Nat. Hist. (6) viii. p. 294¹.

Hab. MEXICO, Atoyac in Vera Cruz (*H. H. Smith*¹).

By an unaccountable slip, the description of this species was published under the generic nomenclature of *Fidicina*. The highly developed tympanal coverings in the male will at once prevent it being placed in that genus, while it is allied to *Cicada pallida*, Dist.

TYMPANOTERPES (p. 14).

2. *Tympanoterpes ruatana*. (Tab. VI. figg. 13, 13 *a*, *b*.)

Tympanoterpes ruatana, Dist. Ann. & Mag. Nat. Hist. (6) viii. p. 294¹.

Hab. HONDURAS, Ruatan Island (*Gaumer*¹).

FIDICINA (p. 16).

7. *Fidicina amœna*. (Tab. VI. figg. 15, 15 *a*, *b*.)

Fidicina amœna, Dist. Ann. & Mag. Nat. Hist. (7) iv. p. 112¹.

Hab. COSTA RICA, Vallé du Diguís, Pacific slope (*Pittier, in coll. Dist.*¹).

8. *Fidicina cachla*. (Tab. VI. figg. 16, 16 *a*, *b*.)

Fidicina cachla, Dist. Ann. & Mag. Nat. Hist. (7) iv. p. 112¹.

Hab. COSTA RICA, Rosario de Desamparados (*Biolley, in coll. Dist.*¹).
